## **Hope Township Municipal Water System**

**Project Status  
September 11, 2012**

### **Municipal Water Project:**

- The plans and specifications have been reviewed and approved by Rural Development.
- The Second Public Hearing has been scheduled for September 24, 2012.
- There is some legal paperwork that Rural Development needs completed prior to their authorization to bid. We anticipate this being completed shortly and the project to be advertised for bids in the next couple of weeks.
