

Hope Township Municipal Water System

**Project Status
April 10, 2012**

Municipal Water Project:

- We have collected all field survey data. We are completing field review of the information collected.
- Base plans are approximately 50% complete, and include property lines, parcel numbers, and existing physical features.
- We have a preliminary design of the water main completed from Shearer Road south.
- Specifications and Contract Documents are approximately 60% complete.
