

Hope Township Municipal Water System

**Project Status
July 10, 2012**

Municipal Water Project:

- Base plans are complete, and include existing utility information, property lines, parcel numbers, and existing physical features.
- We have the design of the water main completed for the entire water district including hydrant and valve locations. We are currently working on the design of the roadside ditch and culvert restoration as well as the water main bores in the profile view of the plans.
- Specifications and Contract Documents are approximately 90% complete.
- Soil Boring crews have completed the borings and are working on their lab analysis and report.
- We are preparing easements descriptions and legal documents for the Township to obtain signatures.
